STATE UNIVERSITY OF NEW YORK
ALBANY 1, N.Y.

OFFICE OF THE PRESIDENT

To the Class of 1959

State University Teachers College at Plattsburgh

A decade ago, steps were taken to give the people of New York State a state university. True, more than a century and a half earlier our first post-Revolutionary Legislature had passed an act to establish such a university, and even a century ago there was much agitation for a state university. It is equally true that the State had established a number of colleges such as your own college, which is about to end its seventieth year.

But the year 1948 nonetheless marks the passage of the legislation actually creating the State University of New York, and the year 1949 was the date of its becoming an administrative entity. Because we like to mark off anniversaries in round numbers, it is appropriate that we take stock at the close of this first decade.

Much, we can say with justice, has been accomplished. Many facilities have been added, and the approval by the voters at the 1957 election of our five-year capital program augurs the opening of many more buildings. Programs have been broadened, too, and strengthened -- as has the quality of the faculty and the student body. Our accreditation as a university in 1952 attests to some of these gains. Students, as well as the faculty, can join all of us in regarding such events with pride.

At the same time, we cannot merely be content with what we may have achieved together. If we are to continue to provide enough opportunities for qualified young people, we must push on toward the vision of the great university which was in the minds of legislators and other forward-looking citizens in 1948. I hope that you as alumni of the State University of New York and one of its fine colleges always will give your support to your alma mater that she may not only continue to serve, but do so in even better fashion, those deserving young people who follow you to the doors of the university for the opportunity which lies inside.

In congratulating you on your own achievements, I urge you also to help us go forward in our second decade as a university.

William S. Carlson
President

Higher education is deemed necessary in present-day society because it enables the individual to adjust to the dynamic world of which he is a part. During his formative years he may not only study the humanities and the natural and social sciences, but also achieve greater understanding of people, enabling him to know better the contemporary members of his society. While at college the individual may also find a joy and freedom of living which comes, to a certain degree, with independence, but more basically, I feel with an appreciation of the more important things life has to offer. He learns to give something of himself to each enterprise in which he is engaged. The teacher particularly must know himself best of all. Only by knowing himself can he expect to be capable of comprehending the actions of those around him. It logically follows that the person with the greatest human understanding will be the most successful educator. These attributes which I have mentioned cannot be completely acquired within the relatively short period of four years. A lifetime consumes us before all our goals can be realized. But we can move toward a goal in much less than a lifetime, in even the brief space of our particular college generation.

CAMPUS

Hawkins Hall

Hawkins Hall, the largest building on campus, houses the administrative offices, library, lecture rooms, auditoriums, and gymnasiums. Founded twenty-six years after the Civil War, this modern building is named after the late George K. Hawkins who was principal of Plattsburgh Normal School.

Metropolitan Hospital

Located about three hundred sixty miles from campus, the Metropolitan Hospital provides the facilities and personnel with which the student nurses diligently study to become proficient in their "bed-side manner."

President's House

The President's house is located on Court Street. This pretentious, imposing structure serves as a constant reminder to the student body that education is a field of limitless possibilities.

Home Management House

The Home Management House represents the ultimate stage in practical training for Home Economics students. This house is complete with "kitchen, living room and child."

Ward Hall

Ward Hall, providing the modernistic touch to our college campus, embodies science, home economics and art laboratories, lecture rooms and faculty offices. The facilities enable each student "to become all that he is capable of being" whether in the re-creation of a Christian Dior original or the expression of himself through art.

Foundations

From this bleak abyss will rise a new and purposeful edifice that will serve as a residence for our ever expanding female enrollment. This building will embody the latest techniques in functional design. It will, indeed, represent another step in the expansion of our college.

Macdonough Hall

Macdonough Hall, the largest women's residence on campus serves as the focal point of student life . . . especially on Saturday night.

Wells Court—

DKD House

Situated on Wells and Court Streets, "Doc" Diebolt's Domicile houses the largest male population on campus. This residence with its spacious, modern, fully appointed rooms offer the student a unique atmosphere conducive to anything . . .

Central Nurses Residence

The nurses' residence, located on Welfare Island is the home of all sophomore and junior student nurses. The residence, aside from its modern facilities, is advantageous in its proximity to metropolitan New York.

Athletic Field

Completed in the spring of '57, this welcome addition to our campus occupies the area on the banks of the Saranac River. It embodies the tennis courts with lights provided for night use, and a sports activity field where baseball, soccer and touch football are played.

Twin Valleys

The ultimate in outdoor living, this hide-a-way consisting of seven hundred eighty acres offers an escape from the modern, every day conveniences for both students and faculty. Sleeping bags, breakfast at six, exploration and discovery all contribute to an enjoyable and memorable experience.

FACULTY

Dr. George W. Angell

In the swiftly moving events of modern life some of our most cherished memories are dimmed by the flood of current pressures. My sincere congratulations to the class of '59 for the beautiful way in which this *Cardinal* catches the heart beats of our campus life and artistically presents them for many years of pleasant retrospect.

Dr. and Mrs. Angell at Home

Dr. Redcay

One of the most colorful and popular administrative personalities on campus, Dean Redcay serves as the chief overseer of curriculum and faculty policies. His interests vary from the jazz piano to educational forum.

In the fall of 1955, the Class of '59 began its history. The terrors of Freshman Week mingled with the terrors of Frosh Court, all have blended into a pleasant memory. Our Sophomore year was not devoid of activities; the Sophomore Party, the Sophomore Soiree and the crowning of the King and Queen of the Freshman-Sophomore Picnic. "There are only—weeks 'til marvelous, supreme, effervescent, glorious, etc. Junior Week!" This was the cry for the Class of '59. All the work and fun that exists is embodied in the Junior year. Now with Senior teaching assignments clutched in our hands—peace!

THE STAFF

The big news came in April: Cardinal Staff elected! The '57 Cardinal Staff peered sympathetically at the names of those supplicated to write the '58 Cardinal.

Delusions, delusions . . . what a beautiful world. A world we resided in until September arrived bringing the realization that yearbooks don't make themselves.

The crushed look on Marge's face as she stood with all her drawings of "Emin Yttif," the spirit of '59 never to become a reality.

Helen's unforgettable statement "That in a mess like this, people's true colors come out."

Will Anne ever be able to get over the embarrassment of buying those gum erasers? Grind—Grind—Grind!!!!

Larry's melodious voice singing his favorite tune at each and every meeting.

And Joe who "Couldn't care less!"

Mary almost went blind looking for Hirsch.

"Like where is he with that copy?"

Always to be found—the Hedda Hopper of the Cardinal Staff—our boy Bruce. Where ever did he get all those hats?

Poor Cyril wore out five pairs of shoes chasing John Longren and not far behind was Georgia.

Meetings at times took on the essence of a record hop thanks to the efforts of Vul.

Sadie Thompson's many suggestions from the Conference are long "Gone With The Wind."

Last, but certainly not least, is the trainer of the three-ring circus our great editor, Buntly "Deje" Drewes.

What kind of paper—cover—type?; on and on, decisions. The end result: a friendship between members likened only to a family.

The book was finished, the sighs were given vent—Cardinal '58 . . . soon to be a memory.

Yellow jackets, ready smiles and the name Clio are familiar to everyone on our campus. Besides the social functions and annual show given by the sorority, they're interested in helping those less fortunate in the community and area.

Nineteen fifty-eight proved to be a monumental year for the membership of Delta Kappa Delta. It was the year in which DKD found itself a house. DKD holds several smokers each year, get-acquainted TEAS at the local imbibition centers, spring and winter trips to the Thousand Islands and other social functions. Community work was not ignored by the membership either. DKD contributed to the Interfraternity Council for the Christmas gift to a needy family, cooperated with the Community Chest by soliciting over a large area of the city, and actively supported The State University Bond Issue. Brotherhood, scholastic leadership and the development of a superior teacher are the aims of Delta Kappa Delta.

Athletic Board

The Athletic Board, advised by "Doc" Wiley, once again faced the task of allotting funds to various athletic functions. The board soon became aware of financial difficulties due to insufficient funds. Wise distribution, however, allowed a full schedule of activities. Besides its regular duties, the board undertook the Athletic Banquet where awards were distributed to all deserving athletes. One of the projects of the year was the reorganization of the tennis team. Returning by popular demand, it is the hope of the board that in the near future tennis will once again become a major sport on campus.

Women's Athletic Association

Under the guidance of Dr. Alice Backus, the Women's Athletic Association is in charge of the sports activities for the co-eds of the campus. It arranges sports days with near-by colleges such as U.V.M., Middlebury and Potsdam. This year the association devised a new system of presenting awards to the most deserving girls. Meetings were held and all sports enthusiasts were invited.

Men's Intramural Board

Chosen by "Doc" Wiley, this small, yet efficient group of men assist, encourage and direct all intramural sports on campus, i.e., basketball, football, softball, volleyball and tennis. Under "Whale" Keenan's leadership, the board has established a two-night men's basketball schedule which has increased interest and rivalry among the squads.

JUNIOR VARSITY BASKETBALL

Once again the Plattsburgh Basketball team under the direction of Coach Joe Jastrab completed a successful season, compiling a 13-4 record for 1957-'58. The Cardinals spot-lighted a fast-breaking and deadly, shooting attack along with precision defense. The starting quintet of Co-captains Dick Jamison and Mike Kunkie; Jack Patter, John Luke and Ron McGovern formed the nucleus of the team. Filling in ably were Neil Breen, Sid Ganyea, Pat Malan, Dave Emis, Lee DeCoste, Rick Florin, and Francis Arthur—most of whom were playing their first year of varsity ball. Definite losses to the team were last year's captain, "Pops" Bullock and the record breaking scorer, Jim Merrill.

Summarizing the Cardinals' 1957-'58 play, it can be said to have been "hot and cold." Here was a club that had the potential of winning every game of their schedule, but due to poor ball handling gave a few half-games away. This team could lose to Albany, a team of equal caliber and then go on to beat one of the area's undefeated teams—the Plattsburgh Air Force Base Panthers.

Season play began with four straight wins over McGill, Potsdam, Danbury, and McGill again. The next opponent to face the Cardinals was Albany State which gave Plattsburgh its first defeat. The story might have

been different had they been matched in the second half of the season's play under more favorable conditions.

Back on the home court the Cardinals won over Norwich in a close contest. The next three games were played on the road where we lost to a strong LeMoyne team, came back to win over New Paltz, but fell again to defeat in the contest against Oneonta. In our next encounter the Cardinals played host to the Plattsburgh Air Force Base Panthers who were seeking their fourteenth straight victory with no set backs. A great night allowed the Red-Birds to squeak by to give us a 7-3 record. The next two games were victories over Roberts Wesleyan and New Paltz on the home court. Our last road game, which also became our last loss of the season, came at the hands of Norwich.

Back home again the Cardinals won over New Haven State Teachers, and Marjor College. They avenged their previous set back over Oneonta and wound up the season with a thrilling victory over Potsdam.

Although P.S.T.C.'s varsity ended its regular season, the Cardinals participated in the Second Annual New York State Teachers College Invitational Tournament held at Oswego.

The Junior Cardinals posted a 5-4 record and were paced by Dick Perkins and Rick Florin.

Led by the goaling of John Luke and the team's scoring aces, Don Gregoire and Dick Jamison, the Cardinals put on a fine showing in spite of their rough schedule.

Spring brings baseball coached by J. Jastrab. Team organization and practices get underway. The season, terminating the year of sports, suffered an impending defeat last year which, as this goes to print and we see the new team organized, will serve as incentive for the 1958 team.

Under the supervision of "Doc" Wiley, this co-ed group meets weekly and reviews the fundamentals of aerobatics and gymnastics. Tumbling requires time, effort and a great deal of practice but these students enjoy the sport. As a "culminating activity," with the co-operation of the Modern Dance Group, the two present a program for the entire student body.

BOWLING

Students, who felt that this sport was "right up their alley," participated in the bowling program. At the end of the year awards were given to the bowlers who had accumulated the highest averages.

TOUCH FOOTBALL

Row 1: R. Florin, R. Parsons, T. Lawler. Row 2: R. Perkins, P. Milan, R. McGovern.

This fall the men of P.S.T.C. showed considerable interest in this sport. Five teams battled it out on the gridiron with Ross Person's team edging Mike Bergin's squad 21-6 in the final tilt of the season.

This sport, adding one more night to its program, displayed more teams, keener competition, a better caliber of ball and more sportsmanship than was ever shown on P.S.T.C.'s campus.

WOMEN'S VOLLEYBALL

This sport drew many interested participants and as a result many teams were organized. The end of the season brought about the election of two All-Star teams which engaged in well matched competition.

ACKNOWLEDGEMENTS

Cardinal 1958 is at last a reality, and we would like to extend our thanks to each individual who contributed to the publication of the yearbook. Your cooperation, advice, and encouragement was invaluable to us. Those long sessions into the early hours of the morning, coffee breaks, the happy dispositions of some of you who kept us laughing, the encouragement during particularly anxious or tense moments, and your sense of responsibility will long be remembered. We would like to thank William J. Keller Inc., for the fine job they did in printing the book. John Lonergan deserves special thanks not only for his outstanding photography, but also for his understanding—particularly when those deadlines were pressing and we needed pictures at almost any time of day or night. A note of appreciation should also go to Mrs. Margaret Beekley who spent many hours typing for the CARDINAL staff.

We are especially grateful for the guidance of our faculty advisor, Dr. Allan S. Everest, whose help and inspiration aided us in achieving publication.
